## How do I improve my credit?

Look at your free credit report. The report will tell you how to improve your credit history. Only you can improve your credit. No one else can fix information in your credit report that is not good, but is correct.

It takes time to improve your credit history. Here are some ways to help rebuild your credit.

- Pay your bills by the date they are due. This is the most important thing you can do.
- Lower the amount you owe, especially on your credit cards. Owing a lot of money hurts your credit history.

- Do not get new credit cards if you do not need them. A lot of new credit hurts your credit history.
- Do not close older credit cards. Having credit for a longer time helps your rating.

After six to nine months of this, check your credit report again. You can use one of your free reports from Annual Credit Report.
